C. C. Gillen, Counsel For Defense Alleges Arrest Was Illegal Under The Law

the court heard arguments attacking and defending the constitutionality of the Indiana state law which seeks to make illegal various types of slot machines, under which law police officers for years have been seizing such machines and prosecuting the owners.

The local case arises from the recent raid of a place in Roachdale in which a pin ball machine was seized and charges of operation in it were filed against two men who were arraigned in the Putnam court.

C. C. Gillen, attorney for the deendants, attacked the arrest and seizure on the ground, in part, that the law under which the officers acted is unconstitutional. This evening, awards will be announced in a large list of contests, principally farm products.

One of the speakers of the afternoon was Otis Crane, of Marion, who was quite a bit different from the usual "run" of speakers before such audiences. He talked on hobbies, and proved himself a genial, humorous speaker, bringing smiles or even laughs from men and women who seldom indulge in such frivolity. He has contacted farmers and their families so many years that he knows just how to approach them with the purpose of holding their attention while he instills items of useful value in their minds.

Mr. Crane's talk on "Farm Hobbies" he started with the statement that he was not there to give them information and he swung into his speech so informally that he was fairly launched upon it before his hearers knew what he was about. He said the difference between a horse and a hobby is that you can get off of a horse whenever you want to and sometimes sooner than that, but a hobby rider often has trouble in quitting his steed.

Mr. Crane taught vocational agriculture in one room in a school building twenty years and has had other occupations of a corresponding sort, but during all of that time he indulged himself in hobby-riding. It may he due to that fact that he at the age of three score years and ten, or thereabouts, looks out upon the world through eyes that have crinkles of humor around them. He raised evergreen trees as a hobby but it developed into a money-making business; he bred collie dogs as a hobby but now has 60 females who are doing their duty by the future, and he makes money that way, too; he raises milk goats, and the nannies give milk that sells for 25 cents a quart and often present their owner with three kids in one "litter," which he san sell. His bee-raising hobby brings him money, too.

"One of my hobbies I don't make nuch money out of," he said. "It is archery. I shot in contests with (Continued on Page Two)

MacArthur Expects **Final Jap Offensive**

AROUND THE CLOCK ACTIVITY MARKS BEGINNING OF NEW DRIVE

WASHINGTON, Feb. 9 .- (UP)-Gen. Douglas MacArthur's hardened heroes of the Philippines stood shoulder-to-shoulder today awaiting the "zero hour" of their valiant nine weeks struggle.

Official dispatches indicated that the Jaapnese were about to unleash an all-out offensive aimed at a complete conquest of the Philippines.

A War Department communique Sunday said fighting was "increasing in intensity" on the western side of Bataan peninsula, with round-theclock air bombings of MacArthur's lines and a renewed artillery bombardment of the U.S. harbor forts whose guns make Manila bay useless to the Japanese.

JAPANESE LAND ON WEST COAST OF SINGAPORE

LANDING EFFECTED AT NIGHT UNDER PROTECTION OF SIEGE GUNS

Island Garrison Moved Up Reserves And Are Fighting With Every Available Weapon

SINGAPORE, Feb. 9.-(UP)-Japanese troops landed in force tolay on the swampy west coast of Singapore, coming to grips with the British, Australian and Indian deenders in a fight to the death for this besieged island.

The landing was effected at night nder the protection of an earthshaking barrage by siege guns drawn strait which separates the island from the mainland.

Imperial troops went into action, as soon as outposts had flashed the alarm and reports from the front said merciless fighting was in prog-

ess in the jungle swamps. A few hours before, Japanese roops had occupied deserted, unfortified Pulau Ubin (Ubin island) off the northeast coast, within half a

nile of Singapore. Japanese guns had started a fercious bombardment of objectives all over Singapore, with special attention to road junctions, early yester-

The fire continued without cessation through the day and evening, while the British guns blasted the Johore shore

There was a lull in the Japanese combardment just before midnight. But early this morning every gun which the Japanese had been able to get within range of the island opened up with a tremendous roar that brought every man of the island garrison to the alert and put the civilians of the 751,000 population into the front line of a grim and merci-

less fight. The earth quaked, and great angry red flashes lighted the early morning sky.

As the guns blazed, an air raid

alert sounded, then another. Japanese planes were flying over the island, close to the city, trying to observe the effect of the cannon-

ading. Under long pre-arranged plans, the island garrison went into action and reserves moved up to the fighting lines where the advanced units were fighting with every weapon they could muster, hunting out the Japanese attackers in the thick jungle of the west coast swamps.

The west coast had been recognized as the great danger spot. It is less than a mile from the Johore shore, it is the wildest part of the island, and its terrain is admirably suited to the tactics of the picked Japanese infiltration troops who had crept mile by mile down on Singapore from the top of Malava, worm-

Plans Complete For All-Star **Net Tilt Wednesday Evening**

completed for the basketball game to be held in the local high school gym Wednesday evening under the sponsorship of Post 58' of the American Legion to stimulate the sale of National Defense Savings Stamps.

Don Frazier, Gormer Tiger Cub all-state star, has lined up an impressive group of former Greencastle high school players to meet an equally fine team composed of stars graduated from high schools in the county. Listed among the starters to represent Greencastle will be Ra. mond York, Ben Hanlon, Don Frazier, Charles Conklin, Howard Buis Joe Ellis and Harold "Bomber" Coffman. The team to represent the county will be composed of former stars Bob and Pete Michael from Bainbridge, Bob Cash and Vernon Zeiner from Fillmore, "Curly" Williams from Cloverdale, and Bob Scobee from Reelsville. Several more names will be added to both squads and Putnam net fans are certain to have old memories refreshed Wednesday evening when these two outfits clash.

Considerable interest in the gam is being worked up among the larger industrial firms of the county several of whom are expected to have large delegations present to represent their firms, Since admission to the game is by the purchase at the ticket window of a Nationa Defense Savings Stamp of any size, the stamp to remain the property of the purchaser, there has been quite a bit of friendly rivalry between the larger firms to win the honor of having the greatest number of their organization in attendance.

The Greencastle high school band under the direction of Gene Pennington will present a thirty minute concert before the game and during the rest intermission period. The band concert is scheduled to start at 7:30 p. m.

Pauletic drives a 1931 model and he has just learned that he probably won't have any difficulty getting tires despite the rationing. The tires he uses are outmoded and are of no use for military purposes.

Of course, manufacturers probably will not be making any more tires for Pauletic's 1931 car while the war is on, but he isnt' worried because dealers seem to have plenty in stock, the demand for them isn't heavy, and the tire rationing board has indicated that there would be few restrictions on the sale of outmoded tires.

Feed And Seed Dealers

Request Co-operation of their customers!

In conserving delivery equipment and feed and seed bags during War Emergency. For this purpose the following program has been adopted.

Effective Monday, February 16, 1942

CITY DELIVERIES:

No order will be delivered until the business day following day order is placed, unless it can be made without sacrifice of equip-

COUNTRY DELIVERIES:

Deliveries of orders will be delayed until each merchant accumulates sufficient orders to justify delivery in customers locality.

BAGS AND CONTAINERS:

National stocks of feed and seed bags are being rapidly depleted. We will purchase your surplus of GOOD, CLEAN and USABLE sacks at market price.

GRAINS AND FIELD SEEDS, PRICED IN BULK:

All grains and Field Seeds are priced in bulk. If containers are not furnished by customer, containers provided by merchant will be charged for at market price. Exception: Charge for container will rarely apply to feeds factory packed and sold in unbroken original package.

Your co-operation is earnestly requested in, (1) Placing orders far in advance of needs, (2) Hauling or carrying your own purchases, whenever convenient, (3) Furnishing your own containers for bulk seeds and grain, and (4) Carefully caring for all surplus usable sacks and selling them to your merchant for repacking.

Remember that factory packed 100 lb. packages are cheaper,
